

# Sweetly salty fresh lime soda

Takes 5 minutes, serves 1 and uses a lime squeezer

## INGREDIENTS

Juice of 1 lime (about 35ml)

1 teaspoon of your sweetener of choice, I've used agave syrup here.

1/4 teaspoon salt, use the best you have.

Ice

200ml fizzy water, such as soda, sparkling mineral water etc.

## DIRECTIONS

The key to this recipe is the balance of sweetness to salt, the proportions above are my personal preference. Some people will prefer sweeter and some might just enjoy the salty version. You're not going to find out where you stand until you give it a go and shift the quantities to suit your taste.

Take a tall glass and juice your lime into it. Add the sweetener and salt then mix really well until combined.

Half fill with ice, then top with 200ml fizzy water.
